DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 12-17, 26 and 27, drawn to a method of modifying specificity of a plant lipoxygenase and the protein.

Group II, claim(s) 12-15 and 18-25, drawn to a method of modifying specificity of a plant lipoxygenase and the DNA encoding the enzyme, vectors, cells and plants.

Group III, claim(s) 28, drawn to arachidonic acid.

2. The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The polypeptide of Group I does not share a special technical feature with the polynucleotide of Group II, and neither share a special technical feature with the arachidonic acid of Group III. According to the PCT Administrative Instructions, for molecules to be of similar nature, they need to share a common core structure and a common property or activity. Nor does the relationship of the polypeptides of Group I and the polynucleotides of Group II conform with Example 17 of the PCT Administrative Instructions. The instant claims are not directed to a single molecule, but encompass a family of molecules which are defined by a minimal structure. For these reasons, there is no shared

technical feature between the polypeptides of Group I, the polynucleotides of Group II and the arachidonic acid of Group III. However, the method claims, claims 12-15 will be examined with either Group I or Group II, if elected.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
